

Neotape NT175 RLA All Purpose Application Tape with RLA Adhesive

Product Information

Neotape NT175 RLA All Purpose Application Tape with RLA Adhesive is standard weight saturated paper coated with a high tack rubber adhesive designed specifically as a premasking of small and mid-sized die cut or prespaced vinyl and printed graphics.

It is an all purpose application tape suitable for wet and dry applications with no adhesive transfer.

NT175 RLA features unique release liner adhesive (RLA) technology which ensures your application tape will adhere to the siliconised backing paper of your vinyl.

NT175 RLA is easy to apply without tunnels, wrinkles or edgecurl and stacked graphics will not “dog ear” and stick together. It tears cleanly without leaving stringy adhesive.

Suitable for transferring self-adhesive letters and graphics produced from cast or calendered PVC vinyl. Also highly popular for usage in mounting machines – lays flat and does not tunnel.
